

# ALLERGY AWARENESS

## Home Allergy Trigger Survey

(School) \_\_\_\_\_  
**Home Survey for Parents**

Dear Parents or Guardian,

As part of the Allergy Awareness Program at \_\_\_\_\_, we are requesting your assistance in assessing your child's risk for allergies. Most children can breathe in pollen, dust, and dander with no problem, but these substances present more serious consequences for children who are allergic to them. Experience shows, however, that patients who follow a prescribed treatment program can reduce and effectively manage their allergy symptoms.

Even if your child is not at risk for allergies, the information from this survey will be helpful in a variety of projects planned for Allergy Awareness Day.

Please answer the questions as accurately and completely as possible by placing a check mark next to the appropriate response or filling in the blank. Surveys should be returned to the student's homeroom by \_\_\_\_\_.

Name of Student: \_\_\_\_\_

Homeroom Teacher: \_\_\_\_\_

Name of Parent or Guardian: \_\_\_\_\_
